Superior bikes are being developed, designed, tested and built in the heart of Europe, in Kopřivnice, Beskydy Mountains. Our team consists of bike enthusiasts, proper racers and experts, who have been developing top racing bikes for decades. Our motto **#alwaysrace** really shows what our bikes are about, although racing is not the only goal. Every bike we build has to be Superior in every aspect: it has to be light, fast, easy to handle, reliable and also, comfortable.

While developing bikes, we use our experience together with feedback of XCO World Cup riders and mechanics. Above our factory trials, we test our bikes in the best European facility, German EFBE so that you can rely on our bikes in any situation, on the most challenging and demanding tracks or everyday use in the city. The experience we get while developing and testing top racing machines carries through to our cheaper models. Our entry-level bikes or kids' bikes have the same progressive and modern geometry, which makes them comfortable and fun to use even for inexperienced riders.

What makes us unique is our pure, simple design, with a focus on functionality. We believe that above using all the best materials and technologies, simplicity is the way to make you love your bike – not just for one season, but for many years to come. Pick your bike, go out and have a **Superior day!**

# SUPERIOR

# All of you are team riders

*We support all cyclists. For us, it doesn't matter if you're a professional team rider who competes on the XCO World Cup races, you use your bike on weekends to stay in shape, or you just decided to ditch the car and buy your very first e-bike for your everyday commute.*

*We care about you the same and build our bikes in a way that you can enjoy them exactly as you need: no matter if that means cutting the seconds out of the race or seeking versatility and comfort of a commuter e-bike. For us, the only important thing is that you enjoy cycling and that you have a Superior day out on a bike.*

# FULL-SUSPENSION MTB

## FASTER THAN POSSIBLE

Our motto is **#alwaysrace**. It doesn't necessarily mean only watts, sweat, suffering in the races or making it to the podium. It is more about the competitiveness we are born with, our constant need to beat our personal limits, whatever they may be. To be faster, to make our bikes better, to give you a better riding experience. To give you a **#superiorday** on your bike. That's why we collaborate with the world's best riders, test our bikes in the most renowned labs and push our bikes to the limits of the world's top racing bikes whether it's XC racing models on 100 mm travel or trail bikes with 130 mm travel.

A new kinematic system with sensitive characteristics, optimal reactions from the sag point to optimized end progression

BOOST standard axles for higher stiffness and greater stability of light wheelsets

100 mm travel for RC version, 130 mm for TR version in both carbon and alloy

Flat mount disc brakes for easier settings, smoother integrated design and easier maintenance

# HARDTAIL MTB

## RACE MODE ON

We want you to feel what it's like to speed up. To spin the cranks and feel every watt of your muscles transform into speed. To feel the bike react to every change of direction, to you feeling lighter, faster and completely in control. Our top model bikes are ready to win world class races in the spirit of *#alwaysrace*, our other bikes, in addition to sporting ambitions, aim to make any day in the saddle a *#superiorday* through their precise geometry, light weight and easy control.

2 types of carbon frames for our racing Team/Race range, 2 types of lightweight alloy material with racing/ sport geometry for comfortable ride

Progressive geometry for our modern XC range offering maximal control on technical trails

Flat mount disc brakes – easy settings, smoother integrated design, easier maintenance

Smart details: Block Lock headsets, BOOST standard, light wheelsets

# ROAD & GRAVEL

## CHOOSE YOUR WAY

Our X-Road is the definition of a modern endurance bike. We tuned the frameset to the last detail for maximum rigidity, speed and performance on (and also off) the road. The perfect integration of cables and wires not only in the frame but also in the cockpit and fork underlines the minimalistic function-focused design. A design that has no rivals in its price range. And because not every road is of a racing track standard you'll find 30 mm tires on Gran Fondo racing models and 40 mm tires on Gravel models for a comfortable and safe ride.

Road or Gravel  
groupset setup  
possibility for  
maximal versatility  
of the bike

Internal Cable  
Routing for perfect  
integration: clean,  
modern looks as  
all hydraulic brakes  
cables and wiring  
are hidden within  
the frame

Endurance geometry with aero  
shaping for speed on-road and  
vibration absorption off-road

40 mm tires clearance for  
comfortable gravel wheelset

# URBAN

## THE CITY BELONGS TO YOU

Our Superior Urban collection offers a wide variety of comfortable, fully equipped bikes for everyday commuting. Fast on tarmac roads, ready to explore dusty countryside trails and prepared to fight with curbs, pavements and tram rails of modern cities. These bikes were designed with front shock suspension for a great riding experience, it's rear rack, fenders, lights, kickstand or integrated chain guard make it an ideal every day, all-weather commuter bicycle.

Comfortable all-day ride trekking geometry for relaxed commuting and touring trips

Lightweight aluminium frame with internal cable routing for plain and practical design

City/trekking ready: mudguards, lights, carrier, kickstand, chain guard and other handy accessories

Reliable Shimano groupsets for easy maintenance and long life, hydraulic disc brakes for perfect braking power in all weather conditions

MATTE DARK BLUE

MATTE DARK BLUE

# JUNIOR

## #ALWAYSFUN!

Yes, even our kid's bikes are race-ready. But for now let's forget the race factor. With kids, the only thing that matters is the joy of riding. The sheer happiness that comes with a new bike (yes, you still remember the goose bumps) and the first, second and third ride. If you choose the right bike for your kids you might just provide them with a life-long love and passion. And there is a solid chance that any bike day will be their **#superiorday**. Isn't it worth a try? Carefully chosen accessories and components such as smaller brake levers and derailleur shifters as well as short cranks aim to make Junior models some of the lightest bikes on the market. With 27.5", 24" or 20" wheels it is possible to choose the right size for pure joy of cycling.

Extra light alloy frames for easy ride and control. Tipple butted alloy for Team models with inner routing

Large range of gears for optimal and healthy progress and riding style of young riders

Ergonomics and size of the components meet the style, height and ability of the young riders

Lightweight wheelsets for easy acceleration and bike handling

## FULL SPEED AHEAD

Our sport e-bikes are equipped with state-of-the-art Shimano and Bosch e-drives. These smart-systems will help you should you run out of energy and strength. Whether you lack the strength to get up that hill or the endurance to go through a long all-day spin, you'll find that with our e-bikes you spend a lot more time in the saddle and that you start enjoying cycling again. We build e-bikes in the same way as our classic bikes. Sporty geometry is identical as much as possible. The bottom line: Superior e-bikes are proper sports equipment which will help you to get stronger, faster, and healthier without losing that great achievement feeling.

Same geometry as standard bikes to achieve the best possible control, speed and comfort

Ride the Revolution:  
NEW SHIMANO  
Steps EP8 system.  
85 Nm, up to  
630 Wh battery,  
extraordinary power  
with long-range  
and high durability,  
water, dirt and  
shock resistant

Full integration of cables and  
hoses for a clean look and  
protection of e-drive routing

NEW BOSCH Performance Line/  
Active Line Plus: 65/50 Nm, up  
to 635 Wh battery for a quiet and  
powerful ride

# SHIMANO STEPS

## EP8: RIDE THE REVOLUTION

BRAND NEW E-DRIVE SYSTEM SHIMANO EP8 WITH ENORMOUS TORQUE OF 85 NM IS SMALLER, LIGHTER AND QUIETER. IT GIVES YOU NATURAL PEDALLING EXPERIENCE THANKS TO REDUCED DRAG, FULLY ADJUSTABLE POWER FOR EACH OF THREE LEVELS OF ASSISTANCE. IT ALLOWS YOU TO HANDLE YOUR E-BIKE WITH EASE IN ANY TERRAIN.

**EP8**

## PRACTICAL BENEFITS

- Lightweight for better handling
- Responsive, especially noticeable when riding above 25 km/h
- High but controllable power for added confidence
- Extensive customizable assistance
- Support when pushing your bike and walking. Riders can hop off and walk their bikes without needing to shift: 4 km/h in any gear
- Durable and weather-resistant for riding in all conditions

## RANGES SINGLE TRACK COURSE

## MORE NATURAL FEELING

Shimano reduced drag of the motor by unbelievable 36 %, so after you hit 25 km/h speed limit, you can pedal smoothly and easy as on the standard bike. At 2.6 kg, the EP8 weighs 300 grams less than predecessor drive units. It is truly one of the lightest drive units available and delivers best-in-class power for its weight.

iOS Android

## Shimano E-TUBE PROJECT

Full customization settings are available via E-TUBE PROJECT App and two pre-loaded ride profiles can also be accessed via your display. These will have you covered for a variety of terrain, from challenging singletrack and flowing fire roads all the way through to technical rocky sections. Choose from 10 levels of assist character, five levels of assist start or select and set the maximum amount of torque best suited to your ride style across three modes (Eco, Trail and/or Boost).

\*In Eco-mode  
and based on 504Wh  
(watt-hour) battery.

## OFF-ROAD THRILLS

You don't have to be an experienced rider to enjoy recreational fun in the countryside. Easy to control, you'll immediately notice a smooth and natural experience as the E7000 subtly powers your ride in tune with your riding style. Durable and mud-resistant – whatever the weather – it's designed to handle off-road riding while you soak up the scenery. It rides like a dream and will leave you feeling healthy and energized.

Based on Shimano original test results: combined weight (rider + bike): 100kg  
\*Height meters: climbing distance

(watt-hour) battery.

## RELAX AND RIDE

Our most affordable yet lightest e-bike system yet, the E5000 is specifically designed to lend a helping hand to urban commutes. Whether it's cycling to work, riding the kids to school, picking up groceries or going for a spin with your friends, the E5000 offers the ideal level of support to silently boost your day-to-day activities – thanks to its integrated drivetrain and fully customisable power-assist. Elegantly built for pure comfort and relaxation.

Based on Shimano original test results: flat paved road with riding speed of 23km/h and rider weight of 80kg

## THROUGH THE CITY AND BEYOND

The most versatile e-bike system in our collection, the E6100 is packed with high-tech features. It's designed for everything from busy traffic commuting to leisurely trips through the countryside – and is always ready to give you an uphill boost. The near-silent 250-watt drive unit comes in two versions: one for trekking and one for city riding. Travel anywhere your heart desires, knowing you'll arrive fresh and invigorated.

Based on Shimano original test results: flat paved road with riding speed of 23km/h and rider weight of 80kg

# E-TOUR

## ADVENTURE AWAITS

Our E-Tour bikes give you the opportunity to see and experience more. You will be able to ride further, to load all you need for a weekend out in nature or to discover the world after packing your tent, sleeping bag and enough clothes for a great adventure. Or you can just comfortably keep up with your family during a Sunday ride. Our popular e-bikes are now available not only on Shimano Steps but also on favourite and powerful Bosch Active Line and Performance Line Plus systems.

NEW popular  
BOSCH  
Performance Line/  
Active Line Plus  
e-drive system for  
maximal range  
and power. 65/50  
Nm, up to 635 Wh  
integrated battery

ICR (Internal Cable  
Routing): clean,  
modern looks  
without visible  
cables makes our  
E-tour models one  
of the best-looking  
bikes on the market

Fully integrated 504 Wh battery  
for long-range and easy handling

Fully equipped for city/trekking:  
mudguards, lights, carrier,  
kickstand, chain guard and other  
practical built-in accessories

For more than ten years, Bosch has been delivering innovative e-bike drive systems that offer the great performance and quality. They are designed for use on technical terrain, sophisticated sensor management means the power of the Bosch drive system can always be controlled. Powerful Bosch lithium-ion batteries with 500 or 625 Wh capacity supply the necessary power. The robust Purion display shows all of the important riding data such as speed, battery level and range at just a single glance.

## Riding modes

### Off

No support (all display functions are still available)

### Eco mode

Effective support with maximum efficiency for the greatest range

### Tour

Uniform support for rides with long ranges

### Sport/eMTB

Powerful support for all types of riding, such as a sporty ride or for fast commuting in city traffic.

### Turbo

Maximum support delivered immediately - even up to the highest cadences for sporty riding.

## Purion Display

### Sporty and natural

Design meets functionality: Purion is the minimalist on-board computer for everyone wishing to have a neat look on the handlebar, be it for use in the city or the countryside. You get all important information conveniently at the touch of a button during the ride, with both hands remaining on the handlebar. Five different riding modes give you the correct support in every situation.

## Performance Line Cruise

### Sporty and natural

With a sporty torque of 65 Nm and high performance, the Bosch Performance Line provides the right support at the right moment, even in the mountains. The riding sensation remains natural with barely noticeable pedal resistance when switched off or at over 25 km/h. All of this and almost silent too - for maximum riding enjoyment.

### Max. torque

It facilitates sporty acceleration even in high cadences

### Max. drive

Dynamic, ideal for extended sporty rides

### Drive Unit

For all requirements and speeds up to 25 km/h

## Active Line Plus

### For everyday adventures

Active Line Plus brings mobility to everyday life and extends your options for spontaneous trips. The quiet yet powerful drive unit offers significant riding enjoyment. It allows agile handling and fits perfectly inside the frame of the eBike. Incredibly quiet and barely noticeable pedal resistance over 25 km/h. New experiences and discoveries await!

### Max. torque

For well-controlled acceleration

### Max. support

The versatile solution for city trips and light touring

### Drive Unit

Perfect delivery of support up to a maximum of 25 km/h

# E-URBAN

## TURN THE CITY ON

City e-bike has to be safe, fast, and comfortable while riding: to work or school, for a coffee or to a date. It doesn't matter where you are heading as long as you get there fast, safe and not covered in sweat. All you have to bring along is the key to your bike lock and your helmet. That's why our e-bikes are fully equipped with mudguards, kickstand, carrier, lights, and a proper lock. We build our bikes on Shimano Steps and newly on Bosch Active Line Plus e-drives.

Fully equipped for city/weekend riding: mudguards, lights, carrier, kickstand, chain guard, and other practical built-in accessories

SHIMANO Steps  
E6100/E5000  
city-specific  
e-drive: 60/40 Nm,  
504 Wh battery,  
sophisticated  
pedalling help and  
long-range

Popular BOSCH Active Line Plus  
e-drive: 50 Nm, 500 Wh battery,  
quiet and powerful ride with long-  
range

New low step frames for easy  
accessibility, handy control and  
practical use in the city or the  
countryside

5-YEAR FRAME WARRANTY

We trust our bikes and we build them with no compromise in quality. That's why we offer a five-year warranty on our frames. We design our bikes not only to be as light and fast as possible but also stiff and durable. Not only do we meet all the regulations, but we also want our bikes to exceed them. We design, develop and test our bikes in the Beskydy Mountains. We also cooperate with world cup riders and mechanics to deliver the best possible quality and riding experience of our bikes. We test our bikes in the best European laboratories, so we can proudly say: our bikes are genuinely Superior.

*\* We offer a five year warranty on frames from the 2020 collection onwards. A warranty only applies to manufacture defects of the frame and the way it was constructed and does not apply to the finish/coating of the frame and its accessories. For more information, terms and conditions of the five year warranty contact your dealer or visit our website.*

**WE OFFER A 5-YEAR FREE WARRANTY ON SUPERIOR FRAMES FROM 2020 COLLECTION.**

**Superior accessories for those who care and for those who don't.  
Durable, solid, superbly designed by bikers - just for a biker like you!**

ONE accessories are compatible with all Superior bikes and let customize their look and usage. They are designed to complement your bike configuration, are easy to use and mount. We want you to enjoy your bike, have fun during your rides and feel safe and cared!

ONE offers you bike parts and accessories which are thoroughly thought by the crew who have had more than 20-year experience in bike making. We don't know your riding style but we know what is important to feel good on a bike.

ONE satisfies the needs of all types of riders: racers, commuters, everyday riders, travellers and adventurers, offering the right choices instead of compromises.

# CLOTHES

Protection, comfort, function and look

Superior clothes are visible - equipped with reflective elements to make you seen on the road, they also look good so no-one goes past you uninterested. They protect you from the weather conditions and give you comfort you need to stay on a bike as long as you want to. Designed by bikers for bikers. They are stylish and made of high quality functional materials and equipped with all the premium extras, which you overlook at the first sight, like waterproof pockets, zipped pockets for valuables, YKK zippers, silicone bands to keep cuffs and rear in place.

2.

3.

4.

5.

## 1. MTB-XC JERSEY SHORT SLEEVE

Made of premium fabrics, equipped with reflective logos at each side, MTB crosscountry jerseys have flattering cut, which feels good while on and off the bike. Lightweight and breathable, with YKK zipper, three rear pockets and additional waterproof zipped pocket to keep your valuables safe, Superior jersey is a great choice for your rides.

## 3. TRAIL JERSEY SHORT SLEEVE

Made of lightweight and flexible fabric, it features reflective logos and a rear pocket. Casual and loose fit will make you feel great while riding your bike and after it while relaxing with friends.

## 5. BIB SHORTS BOTTOM LINER

The bottom layer designed specially to fit loose Race pants. They have additional cargo space at the rear and at sides. Made of lightweight and breathable fabrics, they provide comfort and hygienic feel. Designed to stay in place inside Race pants thanks to additional pullers.

## 2. MTB BIB SHORTS

Combine luxurious fabrics and premium seamless fit with reflective elements, XC pro bib shorts will give you unrivalled comfort and performance. Designed for racing, they will be a great companion during long distance rides.

## 4. RACE PANTS LOOSE

Designed to withstand dust and mud and crashes, Superior race pants are made of light and durable fabrics. Equipped with YKK zipper and side pockets to allow to get inside liner cargo pants. Designed to fit LINER cargo pants, they are adjustable at the waist with Velcro strap and represent loose casual trail fit to make you feel relaxed during your rides and after them.

## HELMETS

Because you have one brain!

For any type of a cyclist a helmet is the most important element of protection equipment. Superior helmets combine style and high level of protection and ventilation. You can choose from 8 types of Superior helmets: from kid helmets, through junior, durable MTB helmets with extension at the back, to stylish urban and XC racing light helmets. All of them fulfill high safety standards and look exactly the way they should - stylish and protective.

4.

5.

6.

7.

8.

### 1. TRAIL PRO

Helmet is designed for all-mountain riders that demand the balance of style, protection and ventilation. Internal air channels are combined with open intake and exhaust ports to maximize ventilation. Under visor channels promote airflow to prevent fogging of your eyewear.

### 3. MTB RACE

Helmet meets racers' needs without any compromises, provides all the features you want in a lightweight and stylish package. Easy fit adjusting system works for a secure and comfortable fit.

### 5. MTB FUN

It is an everyday helmet with 19 vents that keep your head cool. Comfortable fitting retention systems and lightweight construction makes it ready for any adventure.

### 7. F.L.Y

Junior helmet delivers fit, function, safety and style. It offers the latest in head protection technology, an easy to adjust fit system, and 13 vents for breathability. Ready for anything the trail throws to your way.

### 2. TRAIL

It is a full coverage helmet ideal for all-mountain riders who demand superior protection in hard conditions. Hard shell feature protection in impact areas giving riders the confidence they need to charge harder.

### 4. MTB SPORT

Head protection for mountain bikers looking for a stylish and great fitting helmet. The helmet features extended coverage at the back of the head for additional protection, internal air channels and 24 vents to keep riders cool. Easy fit adjusting system works for a secure and comfortable fit.

### 6. CROSSRIDE

It is the e-bike helmet for a clean, modern look and urban-friendly cruising. Compatible with R.Light 50 for extra safety during night trips.

### 8. RACER

A helmet designed to keep up with today's young chargers. It helps kids enjoy their first rides well equipped with rear coverage and durable construction. And because style matters - the helmet comes in cool bright colours.

### 1. BAGS

Bicycle bags are essential for storage of basic bicycle equipment and valuables. In ONE1 bicycle bags you can carry multitool, tube, tyre repair kit, levers, phone, keys, wallet, credit card or cash.

### 2. LIGHTS

Extremely important part of equipment in low light conditions. In any circumstances: during an all-night ride or a way back home in the evening, ONE lights are easily mounted and last long providing safety and visibility.

### 3. CYCLE COMPUTERS

ONE1 cycle computers measure your daily performance and distance travelled. Intuitive and easy to operate they are good helpers for every trip.

### 4. PUMPS

ONE offers large service pumps as well as minipumps. Whichever you choose they are essential tools that should not be missing in any bicycle workshop and a jersey pocket. Every ONE pump fits any kind of bicycle valves, they are durable and effective.

### 5. MULTITOOLS

The absolute 'must have' for every rider. A large selection of different keys can help eliminate most of the problems encountered, such as tightening a loose screw, flat tyre, and even a torn chain.
