

*Be-FASTER*

WE BELIEVE THAT **RIDING A BIKE** IS ABOUT  
**BEING FASTER!**

**FASTER** THAN WALKING,  
**FASTER** THAN CARS STUCK IN A TRAFFIC JAM,  
**FASTER** THAN YOUR TRAINING PARTNER,  
**FASTER THAN YOU WERE BEFORE!**

JUST FEEL YOUR **HEART BEATING FASTER....**

# E-MTB

## BE-FASTER

Used by **trail builders, coaches, guides** and even **racers** - nowadays electric mountain bikes became specific tools and they finally stopped being considered as a bike for the lazy. Still, a vehicle powered by pedalling, it needs your physical strength and skills to move forward. **Superior E-MTB** key words are **“in less time”**. By using an e-MTB you can **do your workout** in less time, you can **reach the summit** in less time, you can **finish your training loop** in less time, and **train your downhill skills** in less time. **Shimano Steps** drive unit is a magic potion of our times and gives you a natural feeling of propelling the bike with your own more powerful legs. That is enough to call it a good friend. This is also quite a good reason to try it yourself! It's no shame to be faster.

## WHY?

A long time ago we started wondering whether e-bikes can be compared to analogue bikes, and we decided: "yes, they can, but they are not the same." We were thinking about the reasons why people decide to buy e-bikes and what they like about them in particular. We realised that only by understanding "the reasons" we can provide you with an ideal e-bike which you will love instantly. We asked people about their experiences.

**THIS IS WHAT WE HEARD:**

## I FEEL POWERFUL

This is true. E-bikes give independence wherever and whenever you need it. Electric pedal assistance can provide up to 250 Watts of additional power, which for most users is more than their own power input.

## I CAN **DISCOVER** NEW PLACES

...and access inaccessible: from trails located up in the mountains to distant destinations! We never had a doubt in our minds- our bikes need a high-capacity and efficient battery for your peace of mind during long trips.

## I GO **FASTER,** **HIGHER** AND **FURTHER**

To make sure it is possible, we wanted a solution which will give you the natural feel of riding a normal MTB with every pedal stroke you take. This is possible thanks to an intuitive power supply by Shimano STEPS and its three-mode system.

## IT **SHORTENS** THE TIME I SPEND DOING MY **WORKOUT**

To many riders, it's important to maximize the time they spend working on particular skills and squeeze to minimum the time spent on passages. With e-XF we wanted to meet the needs of the most demanding riders.

## IT'S **FUN**

Because riding a bike is! You can ride the trail twice and still feel fresh. So what about riding it again?

HOW WE  
DID IT?

WE USE  
**TECHNOLOGIES**  
WHICH ENSURE  
THE **HIGHEST**  
**QUALITY** OF  
OUR **FRAMES**

## THE BATTERY

**e-XF** looks slim and sexy. Instead of attaching a camelback like the battery to the down tube, we **hide it in it**. An integrated battery reduces the overall weight of the bike and improves its look. It also facilitates cable routing and enables mounting of a bottle cage.

**e-XF is powered by 503 Wh**, which is small and light. The battery is easily removable and two ways of charging are possible.

## THE GEOMETRY AND SUSPENSION

We were determined to keep the progressive geometry, which means the top tube longer and the head tube angle slacker. It's all to give you better stability and easier highspeed cornering, as well as more confidence in steep and uneven terrain.

## THE MOTOR

**e-XF** is equipped with the most **powerful of Shimano motors** - Shimano STEPS E8000 and E7000. It consists of three customisable modes of power delivery: eco, trail and boost, which help provide balanced assistance as a response to pedalling style, cadence and force. This gives a very natural feel of riding a normal MTB. The operating system is intuitive and easy to use and is customizable via **E-TUBE application**, which allows setting personal preferences of the modes. The motor itself is compact and light (1 kg), which is important as far as the comfort of the rider is concerned.

# e-XF 9049 R

## FEATURES

INTERNAL CABLE ROUTING FOR BETTER LOOK AND MAINTENANCE **2.4 TIRES FOR BETTER GRIP** PROGRESSIVE GEOMETRY TO MAKE YOU FEEL CONFIDENT **140 TRAVEL FOR MORE PLAYFUL CHARACTER** INTEGRATED REMOVABLE BATTERY FOR SEXIER LOOK, PROTECTION AND MORE SPACE FOR A BOTTLE CAGE **E-MTB SPECIFIC PARTS FOR A FULLY INTEGRATED AND UNIFIED BIKE**

# SHIMANO STEPS

OUR HIGH-END E-BIKE SYSTEMS CONSIST OF A DRIVE UNIT, BATTERY, DISPLAY AND COMPLETE DRIVETRAIN OF SHIMANO COMPONENTS HARMONIZED TO WORK SEAMLESSLY TOGETHER FOR A NATURAL AND ENHANCED RIDING EXPERIENCE.

E7000

**DRIVE UNIT**  
2,88kg

**MAX TORQUE**  
60Nm

**MAX SUPPORT**  
250%

**POWER-ASSIST MODES**  
Eco | Trail | Boost

**RANGE**  
100km\*

\*In Eco-mode and based on 504Wh (watt-hour) battery.

## OFF-ROAD THRILLS

You don't have to be an experienced rider to enjoy recreational fun in the countryside. Easy to control, you'll immediately notice a smooth and natural experience as the E7000 subtly powers your ride in tune with your riding style. Durable and mud-resistant – whatever the weather – it's designed to handle off-road riding while you soak up the scenery. It rides like a dream and will leave you feeling healthy and energized.

Based on Shimano original test results: combined weight (rider + bike): 100kg  
\*Height meters: climbing distance

E8000

**DRIVE UNIT**  
2,88kg

**MAX TORQUE**  
70Nm

**MAX SUPPORT**  
300%

**POWER-ASSIST MODES**  
Eco | Trail | Boost

**RANGE**  
100km\*

\*In Eco-mode and based on 504 Wh (watt-hour) battery.

## UNLEASH THE EXPLORER IN YOU

Ready to push the limits? So is the E8000. This beast is powerful and strong enough to handle the steepest of climbs yet intuitive enough to give you just the right dose of support along paths and dirt trails or through woods. The lightweight system allows you to jump obstacles, descend and corner just like a regular mountainbike. And it handles beautifully, thanks to its low centre of gravity which makes for responsive handling and easy control. Adventure never felt so natural, healthy or fun.

Based on Shimano original test results: combined weight (rider + bike): 100kg  
\*Height meters: climbing distance

**Natural riding feeling**  
Thanks to its intuitive and powerful response to your pedal strokes, via the torque sensor, you'll experience a smooth, controllable and dynamic ride. The lightweight yet robust HOLLOWTECH II crankset will help you transfer more power to speed.

CHAINSTAY LIKE A REGULAR MTB

The drive unit has been designed so that the frames of an e-MTB bike have almost the same chainstay length as a regular mountainbike – meaning it handles just as nimbly. And has the typical Q Factor for MTBs (the distance between the pedal attachment points on the crank arms) for an efficient pedal stroke.

**Compact and lightweight**  
The drive unit at the heart of the Shimano e-MTB systems weighs just 2,88kg which makes for fantastic bike handling. While its compact design harmonizes beautifully with the frame.

Q FACTOR LIKE A REGULAR MTB

**E-TUBE RIDE app**  
This new app turns your smartphone into a SHIMANO STEPS cycle computer and beautifully displays your real-time riding data.

## WHAT CAN YOU DO WITH E-TUBE RIDE?

**MONITOR**  
Keep an eye on real-time speed, distance, range, power-assist levels and more.

**CUSTOMIZE YOUR SETTINGS**  
Choosing the display size. Simply tap and drag items to your favourite position. Swipe through 5 pre-set layouts.

**EASY VIEWING**  
Pinch in/out to easily scale view. Colour gradients for dynamic visualisation of speed and assist levels.

# E-MODO

## MEN ARE ALSO ALLOWED

**Superior Modo** is a complete collection of bikes designed especially **for women**. With a hint of **girly colours**, unrivalled **quality**, and **high-end components** the collection offers top-notch **racing vehicles** as well as good looking and comfortable everyday bikes designed for women. In Superior we believe that real power comes from the ambitions and things we enterprise, we know that pink is only a colour and a good bike means a good bike, whoever uses it. So, with a bit of fashion and accessories suited to women's anatomy **Modo** collection respond to woman cyclists' demands, but still representing the same quality and durability as men's models. It's time for celebration. It's time for a joyride!

# 5-YEAR FRAME WARRANTY

A warranty only applies to manufacturing defects of the frame and the way it was constructed and does not apply to the finish / coating of the frame and its accessories.

Making a claim against the warranty is subject to the condition that the frame is regularly inspected by an authorized SUPERIOR service station, and that the check is performed at least once per the calendar year. The date on which the bicycle was purchased is considered to be the first day of the warranty period. The regular service inspections must be confirmed with an entry in the chart in the Warranty Card (the penultimate page in the User Manual). The warranty is only valid if you have this document showing regular inspections. The costs relating to the service inspections are covered by the customer alone.

The date of the purchase counts as the opening date for the warranty period.

WE OFFER A 5-YEAR FREE WARRANTY ON SUPERIOR FRAMES FROM 2020 COLLECTION.

# E-TOUR

## EASIER, FASTER, FURTHER

Intended for paved and unpaved roads **Superior E-Tour** bike can take you **further** than you have ever planned to get before. With its **powerful battery** and **low rolling resistance**, a hundred-kilometre trip will not be a problem. It opens **opportunities** which were unreachable a while ago and which are still hard to catch even for a well-trained cyclist. Equipped with **comfortable gears** it is going to remind you of your old bike, but with pleasure you have not expected. Let yourself be back to times of **all-day-long trips**, freedom and crazy plans for the weekend. Make cycling easier than ever before!

**RELAX AND RIDE**

Our most affordable yet lightest e-bike system yet, the E5000 is specifically designed to lend a helping hand to urban commutes. Whether it's cycling to work, riding the kids to school, picking up groceries or going for a spin with your friends, the E5000 offers the ideal level of support to silently boost your day-to-day activities – thanks to its integrated drivetrain and fully customisable power-assist. Elegantly built for pure comfort and relaxation.

Based on Shimano original test results: flat paved road with riding speed of 23km/h and rider weight of 80kg

**THROUGH THE CITY AND BEYOND**

The most versatile e-bike system in our collection, the E6100 is packed with high-tech features. It's designed for everything from busy traffic commuting to leisurely trips through the countryside – and is always ready to give you an uphill boost. The near-silent 250-watt drive unit comes in two versions: one for trekking and one for city riding. Travel anywhere your heart desires, knowing you'll arrive fresh and invigorated.

# Service & warranty

**ALWAYS THERE**

As sure as wheels turn, bikes need fine-tuning from time to time. The more fun you have, the more parts like your chain and brake pads will wear out. But replace them promptly and your bike will serve you well and give you pleasure for many years to come. That's why it's reassuring to know that a Shimano dealer is never far away. Whether you're e-biking through your hometown or hitting the hills or mountains somewhere in Europe, support is always around the corner.

- Shimano Quality Standard
- 2-year warranty on all components – including battery
- Dedicated user-friendly software platform for e-bike set-up
- Fast, high-quality service – anywhere in the world

# E-URBAN

A wide-angle photograph of two cyclists riding towards the camera on a paved path at night. The cyclist on the left is wearing a light blue jacket and a dark helmet, while the cyclist on the right is wearing a plaid shirt and a dark helmet. Both bikes have bright front lights on. In the background, a modern building with many lit windows is visible under a dark sky.

## NEW COMMUTER CODE

Red lights, traffic jams, clocks, telephones, hundred of thoughts and sweat dripping along your spine. Commuter's life is far from the yoga class atmosphere. Change it! Make it a ritual with **less stress** and **less effort**. **Superior E-Urban** bicycles will assist you during your daily commuting: to the office, school, shopping centre or other destinations. Faster than a normal bike, and much faster than a car stuck in a traffic jam **E-Urban** bike is a modern **time machine**. With **an electric pedal assist by Shimano**, you will save your precious energy for the things that are really important to you. Turn "must" into "can" and enjoy your day!

**Superior accessories for those who care and for those who don't.  
Durable, solid, superbly designed by bikers - just for a biker like you!**

ONE1 accessories are compatible with all Superior bikes and let customize their look and usage. They are designed to complement your bike configuration, are easy to use and mount. We want you to enjoy your bike, have fun during your rides and feel safe and cared!

ONE1 offers you bike parts and accessories which are thoroughly thought by the crew who have had more than 20-year experience in bike making. We don't know your riding style but we know what is important to feel good on a bike.

ONE1 satisfies the needs of all types of riders: racers, commuters, everyday riders, travellers and adventurers, offering the right choices instead of compromises.

## CLOTHES

Protection, comfort, function and look

Superior clothes are visible - equipped with reflective elements to make you seen on the road, they also look good so no-one goes past you uninterested. They protect you from the weather conditions and give you comfort you need to stay on a bike as long as you want to. Designed by bikers for bikers. They are stylish and made of high quality functional materials and equipped with all the premium extras, which you overlook at the first sight, like waterproof pockets, zipped pockets for valuables, YKK zippers, silicone bands to keep cuffs and rear in place.

1.

2.

3.

4.

5.

### 1. MTB-XC JERSEY SHORT SLEEVE

Made of premium fabrics, equipped with reflective logos at each side, MTB crosscountry jerseys have flattering cut, which feels good while on and off the bike. Lightweight and breathable, with YKK zipper, three rear pockets and additional waterproof zipped pocket to keep your valuables safe, Superior jersey is a great choice for your rides.

### 3. TRAIL JERSEY SHORT SLEEVE

Made of lightweight and flexible fabric, it features reflective logos and a rear pocket. Casual and loose fit will make you feel great while riding your bike and after it while relaxing with friends.

### 5. BIB SHORTS BOTTOM LINER

The bottom layer designed specially to fit loose Race pants. They have additional cargo space at the rear and at sides. Made of lightweight and breathable fabrics, they provide comfort and hygienic feel. Designed to stay in place inside Race pants thanks to additional pullers.

### 2. RACE PANTS LOOSE

Designed to withstand dust and mud and crashes, Superior race pants are made of light and durable fabrics. Equipped with YKK zipper and side pockets to allow to get inside liner cargo pants. Designed to fit LINER cargo pants, they are adjustable at the waist with Velcro strap and represent loose casual trail fit to make you feel relaxed during your rides and after them.

### 4. MTB BIB SHORTS

Combine luxurious fabrics and premium seamless fit with reflective elements, XC pro bib shorts will give you unrivalled comfort and performance. Designed for racing, they will be a great companion during long distance rides.

## HELMETS

Because you have one brain!

For any type of a cyclist a helmet is the most important element of protection equipment. Superior helmets combine style and high level of protection and ventilation. You can choose from 8 types of Superior helmets: from kid helmets, through junior, durable MTB helmets with extension at the back, to stylish urban and XC racing light helmets. All of them fulfill high safety standards and look exactly the way they should - stylish and protective.

1.

2.

3.

4.

5.

6.

7.

8.

### 1. TRAIL PRO

Helmet is designed for all-mountain riders that demand the balance of style, protection and ventilation. Internal air channels are combined with open intake and exhaust ports to maximize ventilation. Under visor channels promote airflow to prevent fogging of your eyewear.

### 3. MTB RACE

Helmet meets racers' needs without any compromises, provides all the features you want in a lightweight and stylish package. Easy fit adjusting system works for a secure and comfortable fit.

### 5. MTB FUN

It is an everyday helmet with 19 vents that keep your head cool. Comfortable fitting retention systems and lightweight construction makes it ready for any adventure.

### 7. F.L.Y

Junior helmet delivers fit, function, safety and style. It offers the latest in head protection technology, an easy to adjust fit system, and 13 vents for breathability. Ready for anything the trail throws to your way.

### 2. TRAIL

It is a full coverage helmet ideal for all-mountain riders who demand superior protection in hard conditions. Hard shell feature protection in impact areas giving riders the confidence they need to charge harder.

### 4. MTB SPORT

Head protection for mountain bikers looking for a stylish and great fitting helmet. The helmet features extended coverage at the back of the head for additional protection, internal air channels and 24 vents to keep riders cool. Easy fit adjusting system works for a secure and comfortable fit.

### 6. CROSSRIDE

It is the e-bike helmet for a clean, modern look and urban-friendly cruising. Compatible with R.Light 50 for extra safety during night trips.

### 8. RACER

A helmet designed to keep up with today's young chargers. It helps kids enjoy their first rides well equipped with rear coverage and durable construction. And because style matters - the helmet comes in cool bright colours.

### 1. BAGS

Bicycle bags are essential for storage of basic bicycle equipment and valuables. In ONE1 bicycle bags you can carry multitool, tube, tyre repair kit, levers, phone, keys, wallet, credit card or cash.

### 2. LIGHTS

Extremely important part of equipment in low light conditions. In any circumstances: during an all-night ride or a way back home in the evening, ONE lights are easily mounted and last long providing safety and visibility.

### 3. CYCLE COMPUTERS

ONE1 cycle computers measure your daily performance and distance travelled. Intuitive and easy to operate they are good helpers for every trip.

### 4. PUMPS

ONE1 offers large service pumps as well as minipumps. Whichever you choose they are essential tools that should not be missing in any bicycle workshop and a jersey pocket. Every ONE pump fits any kind of bicycle valves, they are durable and effective.

### 5. MULTITOLS

The absolute 'must have' for every rider. A large selection of different keys can help eliminate most of the problems encountered, such as tightening a loose screw, flat tyre, and even a torn chain.

B.CAGE 70

FL.Y. BOTTLE 400

BIG.VALVE.BOTTLE 600

### 1. WATER BOTTLE CAGES

Lightweight and durable bottle cages for a secure fit in the frame. Never again lose your bottle during a fast descent!

### 2. WATER BOTTLES

Hydration is important during every ride. ONE1 bottles are made from BPA free materials. They are very flexible and easy to drink through a wide valve.

### 3. LOCKS

The bicycle lock helps protect your bike against unwanted theft. ONE1 offers a wide assortment of locks by U-shackle locks, lock-chain combinations, folding locks, cable and chain locks with varying levels of security depending on the conditions in which you move.

### 4. KICKSTANDS

Strong and high-quality kickstand helps to safely park your bike in every situation.

### 5. DROPER SEAT POST

With the adjustable saddle height, the technical passages have never been so easy and safe. The telescopic seat post will change your riding style completely.
